

System Infrastructure Services SIS-574 Gaps in the Azure Design and Implementation that need to be closed. SIS-585

Default Rules for Network Security Groups

Details

Type:	Sub-task	Status:	IN PROGRESS
Priority:	Medium		(View Workflow)
Component/s:	Virtualization	Resolution:	Unresolved
Labels:	Azure		

Description

As per the design document;

<https://confluence.almuk.santanderuk.corp/display/CLOUD2/Microsoft+Azure#MicrosoftAzure-DefaultNSGRules>

These default NSG rules need to be stored in a suitable configuration file (JSON or CSV) and located on GitLab so that they can be read in by the automation written for NSG creation.
